ONLY SENT OUT AS A FEELER BY SPAIN.

That Country Wants to Catch the Public Sentiment of America and to Quiet the Spanish.

Washington, July 26.-The reported statement from the Vatican what purports to be terms of peace acceptable to both the United States and Spain is set down here as only one of the many feelers that have been thrown out within the past two weeks to test the public feeling of the United States primarily, and secondarily to break slowly to the masses of Spanish people the realization of their complete defeat; something of which they are not aware, because of the superhuman efforts put forth by the Spanish government to suppress news of the actual events.

It is suspected here that the conditions named, the annexation to the United States of Cuba and Porto Rico and relinquishment to Spain of the Philippines represent what may be now looked upon as maximum concessions Spain is willing to make. From this point of view the statement is not discouraging, though of course, it must be realized that Spanish maximum is very far below American minimum. Still there must be some starting point for negotiations that will in the end lead to peace, and therefore the publication of these various "feelers," is not deprecated by our government, though so far, it can be positively asserted they have no basis of fact, at least on this side of the Atlantic.

SURRENDER TERMS AGAIN VIOLATED.

Spaniards Sink the Gunboat Sandoval at Guantanamo Before They Surrendered There.

Guantanamo, July 26.-The Prairie arrived from Nipe reports all quiet. The Spaniards Monday night sunk the Spanish gunboat Sandoval. This is looked upon as being a gross breach of the terms of surrender, which the Spaniards had knowledge of.

First sergeant of the marines, Kinnie of the New York, went north Monday to get his commission as second lieutenant of marines.

It is difficult to see how the large body of Spanish troops at Holguin can fail to surrender very soon, although reinforced by Spanish forces from Gibara. Holguin is one of the commanding points in eastern Cuba, and the surrender of the garrison will be an important event of the war. News from there is expected shortly and upon it depend some of the plans of some of our commanders.

EFFECT OF SHELLS AT SANTIAGO.

They Did More Damage Than Was at First Thought-Power of the Eight-Inch Shells.

Guantanamo, July 26.-The Nipe bay engagement was quite hot, but no casualties on the American side. The Spanish gunboat Jorge Juan was riddled by our shells. It is believed 300 men deserted from her after the opening of the Kingston's valves.

The investigation of the navy's shells at the bombardment of Santiago reveals some curious facts. Twelve houses were completely wrecked. Sixteen 8-inch shells struck within three blocks of the Colle de Mariana. These excavated the ground to a depth of four feet and to a length of 10 feet. The street was macadamized. It is judged from the fact that many of them struck near the water's edge that a number of shells must have gone into the bay. Officers stated that 30 or 40 went beyond the northern edge of the bay into the Spanish lines. A dozen or more shells had not exploded. In one case a 4-inch shell, fired during the demonstration at Aguadores, had gone through a tree and exploded in the ground beyond. When the severe effect of 8-inch shells was known it was considered not necessary to continue the bombardment longer with 10-inch shells. The effect of these latter would undoubtedly have been of a most disastrous nature to the town.

SHOT AT THE DANDY.

Spanish Take That Dispatch Boat as a Mark of Destruction.

Key West, July 26.-A squad of Spanish soldiers at Bahia Honda fired half a dozen shots at the Associated Press boat Dandy as she was passing that point. Flash and smoke signals also marked the progress of the Dandy along the shore which seemed to be watched.

The country from a point west of Bahia Honda and Havana is in a high state of cultivation.

The red hull of the Spanish steamer Alfonso XIII, sunk near Mariel, is a conspicuous land mark.

Cape San Antonio light at the western extremity of the island of Cuba was burning and Havana was brilliantly illuminated Monday night.

Grant's Command Will Go.

Chattanooga, July 26.-The Third brigade of the First division of the First corps, will leave at once for Newport News. This brigade is commanded by Brigadier General Fred Grant, and is composed of the First Kentucky, Third Kentucky and Fifth Illinois. The brigade will be accompanied by the Third battalion of the Sixteenth Pennsylvania.

MILITARY SCHOOL FOR COLORED SOLDIERS.

A Boston Church Petitions the President to Provide such an Institution - Perfect Officers.

Boston, July 26.-The Twelfth Baptist church Sunday night adopted the following resolutions:

"Resolved, that the president be invited to provide a free military school in which to educate colored soldiers for the duties of commissioned officers which was on March 24, 1894, done for white soldiers who were appointed to lead colored troops, and that the men chosen for the responsible office be taken from those who have won distinction on the battlefield.

"Resolved that the people assembled recognize with gratitude the courage and soldierly qualities of the blacks now in Cuba, who made the victory of Santiago a possibility. As the climate of Cuba, a menace to the white soldier, is adapted to promote the highest development of the black, it is our hope to see the Pearl of the Antilles become to America what it has never been to Spain, the home of a thrifty and happy people.

"Resolved, that it is our belief that the black man has been educated and trained to fulfill an important mission, not only for Cuba, but for the Spanish possessions that are to come under our control. The Cuban, for whom we went to war with Spain, when asked to do menial work, declined, claiming that he was a soldier and not a working man. The negro, faithful to his master, before emancipation came and as a contraband in helping to build our forts and do work essential to the success of the army, was a soldier as faithful in burden bearing as he was brave in battle, and now occupies the proud position he holds in the eyes of the world because Christ's rule obtains control and "he that humbly himself shall be exalted."

Charles A. Brant Shot Dead While Mailing a Letter.

St. Louis, July 26.-Charles A. Brant, a stenographer, stopped to mail a letter at the corner of Twenty-first and Locust streets last night and was shot and instantly killed. Three shots were fired and three men were seen to run. Brant staggered across the street and fell dead. In his pocket was an affectionate letter, evidently to his wife, but addressed to postoffice box 699, Ashbury Park, N. J.; also a will bequeathed: "To Miss Mary Harding, Denmark, Ashbury Park, whom I desire to be notified in case of my sudden death, and who, in the sight of God, is my lawful wife."

Ardmore, I. T., July 26.-A sensational arrest was made here by the capture of George Moore on a warrant charging him with being one of the supposed Santa Fe train robbers that held up the train near Fort Worth last week and killed Fireman Whittaker and wounded the engineer. Officer Booker, who made the arrest, is very reticent about the affair.
